

CBSE- WWF India Wild Wisdom Global Challenge 2021

World Wildlife Fund (WWF) in association with CBSE is organising a Global Wild Wisdom Challenge for grades 6-9, with exciting events and global challenges.

To raise awareness about the value of nature and its conservation, WWF presents the theme for the Wild Wisdom Global Challenge – **"David Attenborough: A Life on Our Planet"**

Our planet is home to incredible diversity of natural places and life. The ecosystems have evolved over millions of years resulting in diverse and complex biological communities living in balance with the environment. The potential loss of any of the species can lead to unprecedented changes in diversity and modifications in our ecosystem leading to collapse of the entire environmental system. According to the Living Planet Report (LPR), 68 % of the wildlife populations have declined since the 1970s. Over the past few decades human activities have destroyed and degraded forests, grasslands, wetlands and other important ecosystems, threatening human well-being.

Each one of us has a role to play- all we need is the will to act. It's only when we have a shared understanding of the problems we face, and the solutions available, we can take action to bend the curve of biodiversity loss.

This year, the Wild Wisdom challenge will take you into an exciting and a reflective journey!

There is no limit on no. of participants. There is a nominal charge of ₹20/- (Rupees Twentyonly).

The challenge is open to students from **grades 6 - 9**.

Click [HERE](#) for interim registration, latest by **5th of June, 2021**

For any clarification kindly contact on School's number.

Regards,

TCCS
